Enrolling a Game Console or Streaming Media Player for Campus Use

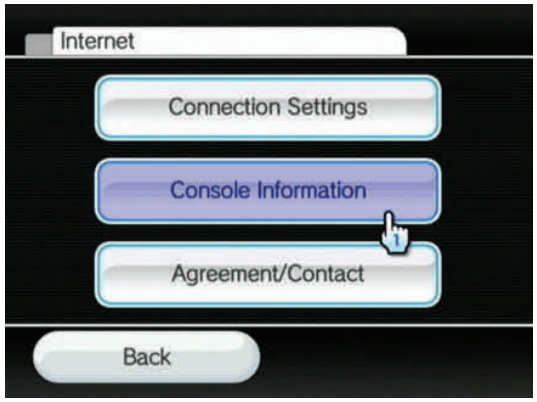
Student Technology Services

Revised October 11, 2012

Wii MAC Address

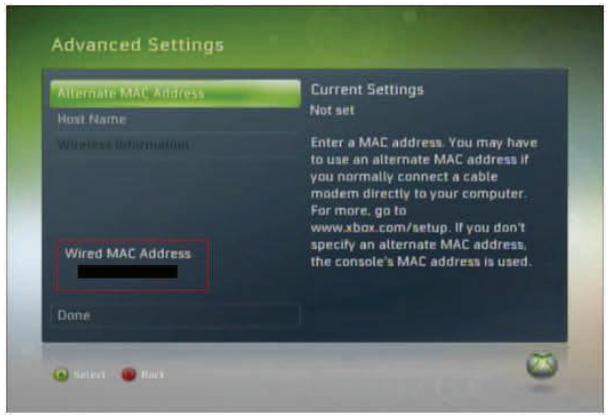
1. Click on the **Wii** icon in the lower left corner.
2. Select **Wii Options** on the following screen.

3. Click the right arrow to advance to the **Wii System Settings 2** page.
4. Select **Internet.**
5. Select **Console Information.** The MAC Address will then be displayed.



Xbox360 MAC Address

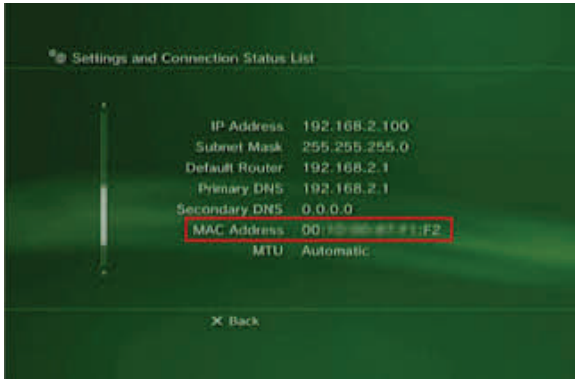
1. Scroll down (if necessary) to **My Xbox.**
2. Select the far right tab labeled **System.**
3. Select **Network Settings.** Then select **Configure Network.**
4. Under **Basic Settings,** check to make sure **IP Settings** is on **Automatic.**
5. Go right and select the **Additional Settings** tab.
6. Go down and select the second item **Advanced Settings.**
7. Toward the bottom of the screen, the **Wired MAC Address** should be present. This is what you need to register device.



Advanced Settings
Alternate MAC Address
Host Name
Current Settings
Not set
Enter a MAC address. You may have to use an alternate MAC address if you normally connect a cable modem directly to your computer. For more, go to www.xbox.com/setup. If you don't specify an alternate MAC address, the console's MAC address is used.
Wired MAC Address
Done

PS3 MAC Address

1. Go to the main menu and select **Settings.**
2. Select **Network Settings.**
3. Select **Settings and Connection Status List.**
4. Scroll down and the MAC Address will be displayed.



Streaming Media MAC Address

As these device type differ greatly, you should consult the device's manual in order to determine the MAC Address. If you do not have the device's manual, go to the manufacturer's website for more information.

If you have a new device that is not recognized, bring the device and user manual to the IT Student Helpdesk for help with enrollment.
